

Important Message Regarding Water Conservation

Due to the current hot and dry weather, the Suffolk County Water Authority is urging all residents to take immediate steps to conserve water.

Residents are urged to:

- **Set lawn irrigation timers to activate at times other than between 3 a.m. and 7 a.m.**
- **Water only on odd or even days.**
- **Use a rain sensor or smart sprinkler controller to properly manage lawn watering.**

Please do your part to make sure there is enough water for everyone!
